

Yiyang (Diana) Wang

Summary I am a Computer Science Ph.D. student at Georgia Tech specializing in human-AI interaction and applied AI. I design and evaluate agentic AI systems for real-world use, with experience in multi-agent frameworks using RLAIIF, self-evolving agents, AI tools co-designed with clinicians, and multimodal systems for well-being and social good. My work combines AI, multimodal data analysis, and user-centered design to build intelligent systems that are effective, collaborative, and grounded in human needs.

Interest Areas Large Language Models, LLM Agents, Multi-Agent Systems (MAS), Multimodal LLMs, Social Computing, AI4Health, Human-centric AI, Applied Health Informatics, Trustworthy AI

EDUCATION

- Current** **Ph.D. in Computer Science**, School of Interactive Computing
Georgia Institute of Technology, Atlanta, GA, GPA: 4.00/4.00
- August 2023** **Master of Human-Computer Interaction**, School of Computer Science
Carnegie Mellon University, Pittsburgh, PA, GPA: 3.99/4.00
- May 2022** **B.S. Computer Science**, Threads: Intelligence and People
Georgia Institute of Technology, Atlanta, GA; Metz, France (Summer 2019).
Cumulative GPA: 3.94/4.00, Major GPA: 4.00/4.00
Relevant Courses: Natural Language Processing, Design of AI Products

INDUSTRY EXPERIENCES

- Present **Research Intern, Microsoft Research**, Redmond, WA
Summer 2026
- May 2025 – **PhD Research Intern, Dolby Laboratories**, Atlanta, GA
- Aug 2025 Developed CompanionCast, a multi-agent conversational AI framework designed to enhance social co-viewing experiences through LLM-driven companion agents.
- Integrated spatial audio processing into a multi-agent system to create immersive, realistic social interactions in group entertainment settings.
 - Implemented an LLM-as-the-judge evaluation pipeline to iterate on agent alignment and conversational quality.
- Jan 2023 – **Research, Meta x CMU MHCI Capstone**, Pittsburgh, PA/Fremont, CA
- Aug 2023 Designed Nova, an LLM-based assistant, to enhance knowledge sharing for the advancement of data centers, overcoming challenges by applying UX research techniques and prototyping, and culminating in a collaborative presentation at Meta's Fremont office.
- May 2022 – **Software Development Engineer Intern, Amazon**, Seattle, WA
- Aug 2022 Delivered E2E pipeline using AWS (Lambda, State Machines) for natural language understanding models' test set release that reduced manual effort and total testing time by 50%
- May 2021 – **Software Development Engineer Intern, Amazon**, Remote/Seattle, WA
- Aug 2021 Optimized automated long-running end-to-end integration tests for internal model release pipeline to a single command on cloud terminal and shortened manual testing time by 8 hours
- Jan 2021 – **Software Engineer Co-op, HubSpot, ML Products Team**, Remote/Cambridge, MA
- May 2021 Delivered Zoom call transcription service to more than 121,000 customers across more than 120 countries and improved conference archive and content accessibility
- May 2020 – **Software Engineer Intern, Cognosco, Software Team**, Remote/Atlanta, GA
- Aug 2020 Enhanced customers' portal experience in tracking over 100,000 assets across multiple industries at a start-up

RESEARCH EXPERIENCES

- Aug 2023 – **Research Assistant, Ka Moamoa Lab**
Present Georgia Institute of Technology, Atlanta, GA
Advised by Prof. Josiah Hester
Topic 1: Socio-Collaborative Multi-Agent Systems
Topic 2: AI in Clinical Decision Making
- Aug 2022 – **Researcher Assistant, WInE Lab**
May 2023 Carnegie Mellon University, Pittsburgh, PA
Advised by Prof. Sherry Tongshuang Wu
Topic: Enhancing user interaction with programming-assistive LLM models to improve code quality and usability through augmented visual cues
- Aug 2019 – **Undergraduate Research Assistant, Ubicomp Lab & Co-well Comp Lab**
May 2022 Georgia Tech, Atlanta, GA
Advised by Prof. Gregory Abowd and Prof. Jennifer Kim
Topic 1: Investigating privacy concerns in contact tracing for personal health informatics and analyzing COVID flow within social groups on campus using machine learning
Topic 2: Developing user interfaces with light sensors for smart control applications and evaluating touch and hover inputs through OptoSense user evaluations

AWARDS AND HONORS

- 2025 **Mini-seed grant**, College of Computing / Dolby
Collaborated with my advisor on grant writing and received \$5000
- 2025 **IEEE/ACM CHASE NSF Student Travel Award**
- 2025 **1st place in the Graduate Poster Symposium (Junior Student category)**, College of Computing, Georgia Institute of Technology
- 2019 - 2022 **Faculty Honors**, Georgia Institute of Technology [[Merit Pages](#)]
- 2022 **Core77 Design Awards**
Part of the project team for PITAS [[Details](#)]
- 2022 **Selected Participant of Global Young Scientists Summit, The National Research Foundation Singapore**
1 of 1000 selected participants, nominated by Student Innovation & Undergraduate Research, Georgia Tech
- 2021 **Undergraduate Student Researcher Making an Impact** [[Media Article](#)]
- 2021 **President's Undergraduate Research Awards (PURA) - Salary Awards** [[Proposal](#)] [[Report](#)]
1 of 80 undergraduate awardees in Fall to receive a \$1,500 stipend from Georgia Tech for conducting research
- 2020 **Grace Hopper Celebration (GHC) of Women in Computing Student Registration Scholarship**
- 2018 - 2019 **Dean's List**, Georgia Institute of Technology

TEACHING

- Sept 2024 – **Graduate Teaching Assistant for Online CS8801 Designing and Building User Interfaces**
Spring 2025 *Course instructed by myself*
Designed syllabus and curriculum and taught 100 students online for one hour biweekly
- May 2024 – **Graduate Teaching Assistant for Online CS1301 Intro to Computing**
Aug 2024 *Course instructed by Prof. David Joyner*
Lead test solution takedowns of a team of 5 TAs, and host help desk for four hours a week.
- Jan 2024 – **Head Graduate Teaching Assistant for CS8803 Health Sensing and Interventions**

May 2024 *Course instructed by Prof. Alexander Adams*

Lead a 75-minute lab session weekly with another TA, design and grade homework.

Aug 2019 – **Teaching Assistant for CS1331 Introduction to Object-Oriented Programming**

May 2020 *Course instructed by Prof. Olufisayo Omojokun*

Collaborated with 5 TAs to lecture/tutor 125 students and supported professor in course management.

SKILLS

Programming: *Advanced* - Python, Java, Javascript; *Intermediate* - Swift, SQL, LaTeX; *Basic* - Assembly, C

OS: Mac OS, IOS, Linux, Windows

Software: Git, Flutter, React, Microsoft Office Suite, Google Office Suite, Unity, Figma, Tableau, Kafka, Hadoop

CAMPUS INVOLVEMENT

2024-2026 **Social Media Chair**, *Graduate Student Association, School of Computer Science, Georgia Tech*

2023 - 2024 **Member**, *Golf Club, Georgia Tech*

2023 - 2024 **Member**, *Student Alumni Association, Georgia Tech*

2019 – 2022 **Social Media Team Lead**, *Girls Who Code - Georgia Tech Chapter*

2019 – 2020 **IT Board**, *Student Government Association, Georgia Tech*

2018 – 2019 **Flutist**, *Concert Band, Georgia Tech*

SERVICE

2026 **Reviewer**, *COLM 2026 Workshop on Agent Behavior (WAB)*

2026 **Reviewer**, *NeurIPS*

2026 **Reviewer**, *UIST*

2026 **Reviewer**, *KDD AI4Science Track*

2026 **Reviewer**, *CPAL*

2026 **Reviewer**, *WWW, Web4Good*

2026 **Reviewer**, *IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP)*

2024, 26 **Reviewer**, *The ACM Conference on Human Factors in Computing Systems (CHI)*

2025 **Reviewer**, *WiML @NeurIPS*

2025, 26 **Reviewer**, *ACM Transactions on Computing for Healthcare*

2025 **Reviewer**, *The ACM International Conference on Tangible, Embedded and Embodied Interaction (TEI)*

2025 **Reviewer**, *IEEE Transactions on Neural Networks and Learning Systems*

2025 **Reviewer**, *Technical Program Committee (TPC) of the IEEE-EMBS International Conference on Body Sensor Networks (IEEE BSN)*

2024 **Reviewer**, *Technical Program Committee (TPC) of the IEEE-EMBS International Conference on Body Sensor Networks (IEEE BSN)*

2022 **Volunteer**, *UbiComp*

MENTEES

2025 Vrinda Narayan, *M.S. Computer Science, Georgia Tech*

- 2025 Benedicte Knudson, *M.S. Human-Computer Interaction, Georgia Tech*
- 2024 Taegen Doscher, *B.S. Biomedical Engineering, Georgia Tech*
- 2024 Shilin Wang, *M.S. Computer Science, Georgia Tech*
- 2024 Aditya Gandhi, *M.S. Computer Science, Georgia Tech*
